Cordova Black Label™ Gloves

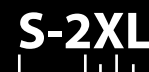

The Mark of Protection

HIGH PERFORMANCE PROTECTION

The sleek, new Cordova BLACK LABEL™ collection is constructed of 13-gauge, High-Performance Polyethylene (HPPE) yarn, interwoven with steel fibers for added strength and durability. The resulting high-performance shells are cut and abrasion resistant with excellent tactile sensitivity. BLACK LABEL™ hand protection is available with traditional polyurethane coating and our new PPU (Polymer Polyurethane) coating, which is a unique blend of thermo-plastic polyurethane and water-based polyurethane.

Applications: BLACK LABEL™ gloves are ideal for a multitude of applications, including metal fabrication, injection molding, food processing, machining operations, and the paper/pulp industry.

The Cordova Black Label™ Collection

When you choose Cordova Black Label gloves, you get a sleek, dependable glove with high abrasion resistance that's thicker than traditional PU. The black shell and coating hide dirt & grime with no bleed-through.

Black Label RED

- 13-Gauge Black HPPE Shell
- Black Polyurethane Palm Coating
- Touchscreen Fingertips

Item: 3705

Black Label SILVER

- 13-Gauge Black HPPE Shell with Steel Fibers
