

NS GRIP™

TRADE SERIES

MODEL NO. 6111

MODEL NO. 6116- HI-VIS

FEATURES KEYS & BENEFITS

Nitrile-Dipped Palm: Aynthetic latex protects from latex allergies, and provides tactile dexterity.

Latex Micro-Finish on Top of Nitrile: Adds grip control on slick or dry surfaces, while still protecting from Latex allergens.

Form-Fitting Construction and Elasticized Cuff: Ensures the gloves fit snugly while in use.

Seamless Construction: Adds durability and longevity.

Non-Coated Back: Ensures glove is breathable and comfortable.

Working on engines, with small parts, or moving boxes and equipment requires gloves with excellent tactile dexterity.

The NS Grip™ gloves feature a Nitrile-dipped palm with a Latex micro-finish coating that adds tactile grip control for slick or dry surfaces. A non-coated back ensures the gloves are breathable and comfortable, while the form-fitting construction and elasticized cuff ensure the gloves fit snugly while in use.
