

TC3

TRADE SERIES

MODEL NO. 6129 ●

MODEL NO. 6121 ●

FEATURES KEYS & BENEFITS

Polyurethane-dipped palm: Ensures dexterity and durability while in use. (White)

Nitrile-Dipped Glove (Black)

HPPE: Adds cut, puncture, tear and abrasion resistance.

Non-coated back: ensures glove is breathable and comfortable while in use.

Form-Fitting Construction and Elasticized Cuff: Ensures a snug fit while the gloves are in use.

Hand-Washable and Hang-Dry Ability: Allows the glove to be cleaned and reused.

When the job at hand requires a tactile grip and cut protection, the TC3 will give you both in a breathable, thin glove.

The TC3 is a thin, dipped glove featuring a Polyurethane-dipped palm on a High-Performance Polyethylene (HPPE) liner, which gives the user tactile dexterity along with cut and abrasion resistance. A non-coated back makes the gloves breathable, while the form-fitting construction and elasticized cuff ensure the gloves fit snugly while in use.
