

# RWG589

CUT PROTECTION LEVEL A9  
SANDY FOAM NITRILE COATED GLOVE

The RWG589 is an 18-gauge glove with a cut level of A9. Its composition includes a blend of materials such as HPPE and nickel gold wire to create a strong outer shell. This shell is coated with a sandy foam nitrile dip on the palm side, which provides excellent grip. Key features of this glove include its ability to provide grip in wet or dry applications, a comfortable fit for prolonged use, cut resistance to protect against sharp objects, and the added benefit of touchscreen compatibility.

EN388:2016

Meets ANSI/ISEA 105:2016
